Commissioner of Patents
United States Patent & Trademark Office
P.O. Box 1450
Alexandria, VA 22313-1450

Dear Sir:

Applicant Howard Kapple requests through his attorney Jay R. Hamilton, that the Commissioner of Patents withdraw the holding of abandonment issued and mailed on 9/20/2004 for patent application number 10,046,045 titled "Precision Aid".

STATEMENT OF FACTS: PROSECUTION TIMELINE

Applicant through his attorneys states the following in support of this petition and the prosecution of patent application 10,046,045 ('045):

- 1) Applicant previously attempted to represent himself in front of the patent office in a pro se manner and filed a patent application on January 16, 2002. (See Fig. 1: Applicant's Filing Receipt)

- 2) A notice to correct papers was issued by the Initial Patent Examination Division and mailed 2/13/2002. (See Fig. 2: Notice to File Corrected Application Papers – 1st page) The patent application was assigned a serial number of 10,046,045 ('045) and a filing date of 1/16/2002 was given to the patent application. (Fig. 2)
- 3) Applicant responded to the Notice to File corrected papers on 3/18/2002. (See Fig. 3: Applicant's Filing Receipt for Notice to File Corrected Application Papers)
- 4) Applicant received confirmation of grant of a foreign filing license on 4/15/2002. (See Fig. 4)
- 5) Thereafter, a Notice of Publication issued and was mailed to applicant on July 17, 2003. (See Fig. 5)
- 6) An office action on the '045 application was mailed on 9/23/2003. (See Fig. 6: Office Action for #10,046,045 – first two pages only)
- 7) Thereafter, applicant attempted to respond *Pro Se* to the issues in the office action. The response was sent by certified mail on November 6, 2003. (See Fig. 7: Certified Mail Receipt & Receipt for Payment for Certified Mail)
- 8) Upon receipt of this response, the patent response was assigned a NEW patent application number of 10, 705,678 ('678) by the Patent Office. Proof of filing and assignment is supported by Fig. 8 – Applicant's Filing Receipt for Response mailed 11/6/2004.
- 9) Thereafter, it is not clear what exactly took place, but it appears from applicant's filing receipt that he again attempted a proper response. This response was also assigned a NEW patent application – 10,792,671 different from either '045 or '678 with a new filing date of 03/04/04. (See Fig. 9: Applicant's Filing Receipt 10,792,671)
- 10) Applicant was then mailed a Notice to File Missing Parts of a Non-Provisional Application on May 26, 2004 for patent application '678. (See Fig. 9B: Notice to File Missing Parts of Nonprovisional Application – 1st page only)
- 11) Applicant thereafter sought the services of his present attorney on June 16, 2004 to assist with prosecution of applicant's patent application.

- 12) On July 6, 2004 applicant's attorney faxed directly to Examiner Linh Troung correspondence including proper declarations and power attorney forms requesting a teleconference so that the issue of the THREE pending patent applications before the office could be properly resolved and proper amendment filed on behalf of the applicant for patent application '045. (See Fig. 10: Applicant's Attorney Correspondence with Examiner – 15 pages)
- 13) Along with this information applicant's attorney filed proof of mailing in response to the office action mailed September 25, 2003 and proof of receipt by the Patent Office on November 12, 2003 in prosecution of patent application 10/046,045. (See Fig. 10: Applicant's Attorney Correspondence with Examiner pages 10-12)
- 14) The correspondence also made it clear that applicant was interested in proceeding forward only with the '045 patent application and the previous responses filed by him were attempts by him, working on his own, to proceed forward with this application. (See Fig. 10: Applicant's Attorney Correspondence with Examiner pages 2-3)
- 15) Applicant's attorney also asked that application prosecution history be reviewed immediately so an accurate date for filing an amendment addressing the examiner's objections and rejections could be determined and complied with. (See Fig. 10, page 2-3)
- 16) Thereafter, applicant received another Notice to File Missing Parts of Non-Provisional Application mailed on 07/28/2004 for patent application 10,792,671. (See Fig. 11: Notice to File Missing Parts of Nonprovisional Application – page 1 only)
- 17) Applicant's attorney then sought to discuss the matter with the patent examiner by telephone with only partial success. Sometime during August 2004 Examiner Truong was placed on administrative leave, further explaining the lack of correspondence from the Patent Office.
- 18) Applicant's attorney was then mailed a Notice of Abandonment on 9/20/2004. (See Fig. 12: Notice of Abandonment pages 1&2)

ARGUMENTS

Applicant's actions as supported his filing with the patent office do not support the conclusion that he has abandoned his invention or his patent application. From applicant's actions, it also does not appear that he intentionally missed a filing or response date as required by the United States Patent & Trademark Office. In fact, Applicant made two (2) separate good faith attempts to respond to the office action issued by the examiner and mailed September 23, 2003 in prosecution of the '045 patent application. Each response was filed in a timely manner. Each response was incorrectly categorized as a "NEW" application by the patent office with the resultant effect being that review on the merits of his response to the office action mailed on 9/23/2003 never took place.

Because no response has issued based on his submission of November 6, 2003, prosecution of the '045 patent application was effectively suspended.

Upon concluding that his responses to the office actions were not being properly handled in the patent office, applicant diligently sought the services of a registered patent attorney. The patent attorney filed critical information with the patent office examiner soon after in a good faith attempt to resolve the issues and continue with prosecution. This communication process was then further complicated by the examiner going on or being placed on administrative leave.

CONCLUSION

The actions and or responses listed above do not indicate a lack of diligence by the applicant or his attorney and instead support the conclusion that a combination of administrative errors and difficult circumstances, many of which were beyond the control of the applicant, resulted in the holding of abandonment.

Applicant respectfully requests that the holding of abandonment in the 10,046,045 ('045) patent application be withdrawn and that his attorney receive an appropriate amount of time to file a proper response to the office action mailed on 9/23/2003.

In consideration of this request, and in compliance with 37 CFR 1.18(e), applicant has not included a patent term adjustment form or fees. Should the Commissioner determine it is warranted in this situation, application to any term adjustment and payment to fees. Additionally, if the holding of abandonment is withdrawn in patent application 10,046,045, applicant requests that the other two patent applications (10,705,678 & 10,792,671) now pending be terminated and any fees paid by applicant as required by the Office and related to these applications be refunded.

Respectfully Submitted on Behalf of Howard Kapple by,

A handwritten signature in black ink, appearing to read "Jay R. Hamilton", written over a horizontal line.

FIG. 10: PAGE 2 OF 15

I am in the process of reviewing Mr. Kapple's materials and assembling a revised patent application and response to the office action cited by you in the office action of September 25, 2003.

After discussing the matter with Mr. Kapple, it is clear that he is only interested in prosecuting one patent application – #10/046,045 – filed on 1/16/2002. All responses previously filed by him were attempts by him, working on his own, to proceed forward with this application.

Because of the rather difficult history of this case, and potential past administrative difficulties in the prosecution process, I would ask that you give this case your immediate attention so that an appropriate filing date can be determined for the revised patent application and response to the office action for patent application – #10/046,045 – filed on 1/16/2002. I would also request that you contact me, as time permits, to discuss the case telephonically.

Respectfully Submitted on Behalf of Howard Kapple,

Jay R. Hamilton
